ABOUT JUNESUN

Experience behind every product

Junesun is an Indian coffee and beverage company serving international markets through customised product solutions and structured supply programmes.

Backed by more than two decades of experience in coffee manufacturing, sourcing, international trade and export-market development, Junesun combines industry knowledge, commercial discipline and global market exposure.

The company works closely with origin suppliers and established manufacturing partners to deliver green coffee, instant and roasted coffee products, cocoa- and malt-based beverages, premixes and other customised beverage solutions.

Every programme is developed around the customer's product profile, taste requirements, packaging format, target market and commercial objectives. From initial formulation and sample development to bulk, consumer-packs and full-container supply, Junesun provides coordinated support across product development, sourcing, manufacturing, packaging and delivery.

With clear specifications, consistent quality, competitive commercial structures and reliable execution, Junesun aims to build long-term partnerships and create products suited to each customer's market.

EXPERIENCED FOUNDATION

Two decades of expertise in coffee and beverages

END-TO-END SUPPORT

From concept and samples to bulk and container supply

CONSISTENT QUALITY

Robust processes and reliable manufacturing partners

GLOBAL PARTNERSHIPS

Strong supplier network and export market experience

From origin to finished format, we develop solutions that fit your market.

LEADERSHIP & CAPABILITIES

Leadership Team

Raju Kanumuri

Co-founder & Operations Head

A Chartered Accountant, Raju leads sourcing, manufacturing coordination, commercial operations and supplier relationships. He works closely with origin suppliers and production partners to develop and deliver products suited to the requirements of different markets.

Srujana Kanumuri

Co-founder & Strategy Advisor

An MBA graduate from UCLA Anderson, Srujana guides corporate strategy, international market development and the long-term growth direction of Junesun.

KVK Raju

Mentor

A Chartered Accountant and Co-founder of Vayhan Coffee Limited, KVK brings more than two decades of experience in coffee manufacturing, international trade and market development across more than 35 countries.

Integrated Capabilities from Concept to Supply

INDUSTRY EXPERTISE

Practical experience across soluble coffee, roasted coffee, green coffee sourcing, product development and international trade.

ORIGIN AND SUPPLIER ACCESS

Product sourcing from origins, supported by appropriate grades, samples, technical specifications and commercial options.

MARKET-SPECIFIC SOLUTIONS

Products, blends and pack formats developed around each customer's market, sales channel, taste profile, positioning and target price.

FLEXIBLE COMMERCIAL PROGRAMMES

Bulk supply, consumer packs and distribution programmes tailored to different business models and market requirements.

ESTABLISHED PRODUCTION NETWORK

Manufacturing through experienced and established production partners selected according to the product, process and certification requirements.

CURRENT PORTFOLIO

PRODUCTS UNDER DEVELOPMENT

Junesun is steadily expanding its beverage portfolio with coffee and tea premixes, malt-based beverages, additional chocolate-based products and selected functional beverage concepts.

These products will be introduced progressively based on product validation, market readiness and commercial requirements. Availability, specifications and sampling will be announced when each product is ready for commercial supply.

Instant Hot Chocolate

An agglomerated cocoa-based premix that disperses readily into a thick, rich chocolate drink with hot water or hot milk - without boiling.

PRODUCT PROFILE

	Appearance	Free-flowing agglomerated granules.
	Preparation	Add to hot water or hot milk, stir well and serve immediately.
	Allergens	Contains soy.
	Shelf Life	12 months from the date of manufacture
	Storage	Store in a cool, dry place; recommended below 25 °C and 50% RH.
	Formats	Sachets in master cartons . Jars . Pack sizes as agreed.
	Supply	Retail, private-label, HoReCa and institutional programmes
	Documentation	Product-specific certifications, technical documentation and destination-market labelling support are subject to the product and manufacturing facility.

Key Differentiation:

Thick, rich texture without boiling - café-style hot chocolate with simple preparation.

Applications:

Retail · Private-label · HoReCa · Dessert menus · Offices · Institutional service

Detailed and binding product specifications will be issued against the approved sample and commercial enquiry.

COCOA BEVERAGES

Malted Chocolate

Beverage Mix: A delicious malted chocolate beverage mix with the goodness of barley malt, cocoa, milk, plant protein and MCT - fortified with essential vitamins and iron. Easy to prepare with water or milk and perfect for everyday enjoyment.

- Features
- RICH CHOCOLATE & MALT TASTE
- WITH BARLEY MALT & COCOA
- WITH MILK
- PLANT PROTEIN BLEND

SOLUBLE COFFEE

Spray-Dried Instant Coffee

A consistent, fine instant coffee powder suited to premix manufacturing, vending systems, institutional supply, bakery applications, ready-to-drink formulations, and value-oriented retail programmes.

PRODUCT PROFILE

	Appearance	Free-flowing fine brown powder
	Product Base	100% coffee or coffee-chicory blends.
	Solubility	Dissolves readily in hot or cold water and blends uniformly in dry premixes.
	Shelf Life	24 months when sealed and stored in cool, dry conditions.
	Supply	Industrial and institutional programmes.
	Documentation	Product-specific certifications, technical documentation, and destination-market labelling support are subject to the product and manufacturing facility.

Key Differentiation:
Batch-to-batch consistency and easy blending across dry-mix and beverage applications.

Detailed and binding product specifications will be issued against the approved sample and commercial enquiry.

SOLUBLE COFFEE

Granulated Instant Coffee

Agglomerated instant coffee offering an attractive granule appearance, rapid dissolution and a full-bodied cup - suited to retail, private-label and foodservice applications.

PRODUCT PROFILE

	Appearance	Free-flowing dark-brown granules
	Product Base	100% coffee or coffee-chicory blends.
	Solubility	Dissolves readily in hot or cold water.
	Shelf Life	24 months when sealed and stored in cool, dry conditions.
	Formats	2 g sticks · 50 g / 100 g / 200 g jars or metal tins · 25 kg bulk packs.
	Supply	Retail, private-label and foodservice programmes.
	Documentation	Product-specific certifications, technical documentation and destination-market labelling support are subject to the product and manufacturing facility.

Key Differentiation:

Distinct granule appearance with rapid dissolution and a clean, full-bodied cup.

Detailed and binding product specifications will be issued against the approved sample and commercial enquiry.

Shade-grown coffees of the Western Ghats

India produces distinctive Arabica and Robusta coffees across the shade-grown estates of the Western Ghats. Washed, natural and monsooned preparations are available for espresso, soluble coffee, traditional coffee and commercial blending applications.

FEATURED · MYSORE NUGGETS EXTRA BOLD “MYSORE NEBARI”

	SPECIES	100% Coffea arabica, fully washed.
	REGION	Chikmagalur . Coorg . Hassan, Karnataka.
	ALTITUDE	Approximately 1,000 - 1,500 metres.
	SCREEN	90% on Screen 19 100% on Screen 17.
	CUP PROFILE	Chocolate and caramel mocha overtones velvety body.
	PACKING	60 kg new jute bags; liner on request.
	20 FT CONTAINER	Approximately 320 bags · 19.2 MT.
	RECOMMENDED USE	Single-origin filter coffee espresso · premium blends traditional Arabic and Saudi coffee.

India’s premier grade of washed Arabica, selected for exceptional bean size, density and a clean, uniform appearance. Its large bluish-green beans are widely recognised in Gulf markets as Mysore Nebari.

Supply is subject to crop, grade, lot availability, approved sample and final shipment specification.

Cochin

The birthplace of Arabica

Junesun sources Ethiopian green coffee for roasters, traders, importers, soluble-coffee manufacturers and commercial blending programmes. The range includes six widely traded Ethiopian origins, each offering a distinct highland character. Supply is based on origin, grade, processing method, approved sample and current lot availability.

Yirgacheffe

Floral, complex and fruity, with tea-like character and lemon notes.

GEDEO ZONE
1,700 – 2,200 m
WASHED / NATURAL

Sidamo

Balanced acidity and body, with floral-spicy character, sweetness and berry notes.

SIDAMA
1,500 – 2,200 m
WASHED / NATURAL

Guji

Vibrant acidity with tangerine, strawberry and expressive sweetness.

GUJI ZONE, OROMIA
1,500 – 2,200 m
WASHED / NATURAL

Limu

Clean and refined, with ripe-fruit sweetness, gentle spice and floral notes.

JIMMA ZONE
1,100 – 1,900 m
WASHED / NATURAL

Jimma

Well-balanced body with black-tea, citrus and ripe-fruit character.

SOUTH-WEST ETHIOPIA
1,500 – 1,800 m
WASHED / NATURAL

Lekempti

Bright, fruity and clean, often with a larger bean size and strong appeal in Middle Eastern markets.

EAST WOLLEGA
1,900 – 2,100 m
WASHED / NATURAL
